

Taking Care of a fish

Fish live in water and there are lots of different types.

What does a fish need?

fish tank

clean water

fish food

somewhere to hide

What do I need to remember about having my fish?

Different fish require different things. A goldfish needs cold water but other fish, like tropical fish, need warm water. Some fish need to be in salty water, like seawater, whereas others need fresh water.

How do I keep my fish healthy?

Fish breathe by taking in water through their gills. Therefore, it is vital for the water to be cleaned regularly. In a tank, the water is often cleaned by a filter.
