

On 26th September it is European Day of Languages, which we will be celebrating on Monday 27th September.

For your homework this week you will be researching a European country. For your country you need to locate it on the map, draw and colour the flag, find out about the languages spoken, the food, the traditional dress, the currency and the capital city. Then you need to write an interesting fact about the country.

Remember to use Espresso to help with your research.

Due Tuesday 28th September
