

Homework for this half term (due in Thursday 6th July 2023)

Your homework for this half term is to create a Science quiz for other children on a theme of your choice. It should be a unit of work you have completed at school – eg: sound, animal habitats, space, forces etc. Each question should have multiple choice answers (one correct and two incorrect).

There are very few rules; please make this your own piece of work. You may present your quiz however you choose. It could be a powerpoint, a poster with lift-up flaps or something even more creative. Those children in Key Stage 2 should aim to spend about between 3 and 4 hours during the half term on this work. For the younger children, this is optional and time spent should be at parents' discretion.

Most importantly, have fun and be ready to share your quiz with your class at the end of term!

Mrs Whiting
