

News From Mars Class

Friday 15th May 2015

This week we have been very busy practising our phonics. We have been learning new sounds and applying our phonic knowledge through games and challenges. We have also been looking at plants and naming all their different parts.

In Reception we have been developing our hand and finger movements through carefully constructing different models and buildings with Lego. We have also been using the writing table to create our own stories!

We have also been lucky enough to receive some giant Numicon pieces! We were very excited to open them up and even more excited to start using them!

Notices

We have now got some more WOW moments for you to fill in! We put some in the children's book bags – but if you need any more let us know!

If you have any clean, empty washing-up liquid or other squeeze bottles, we would love to have them, ready for an exciting maths activity.

Best wishes,

Miss Blackburn and Mrs Passan
