

News From Mars Class

Friday 19th June 2015

We had such a fantastic time on our school trip to Woburn Safari Park! We were all so well behaved, and were even praised by the lady who gave us a special talk about habitats. Well done Mars Class!!!

We saw so many animals, including lots of the African animals we have been learning about in school! We saw Tigers, Lemurs, Lions and even a mummy Elephant with her baby!

During our talk about habitats we were lucky enough to meet Savannah the Snake! We were even allowed to give her a little stroke, and everybody had a turn – even Edward! We were SO brave.

In school we have started to design and make our very own African Elephants from milk cartons! We can't wait to show you the finished product!

Coming up soon...

A big thank you to everyone who has brought in some junk for our junk modelling! We have been putting it to good use. We now have plenty to last us until the end of term!

Just another small reminder about our summer fayre stand – if you are able to donate anything at all it will be much appreciated! We will also be working in class to create some things for this!

Best wishes,

Miss Blackburn and Mrs Passan
