

Jupiter and Oak Maths Plan Week Commencing 6th December 2021.

Monday	Tuesday	Wednesday	Thursday	Friday
LO: To be able to compare amounts with a focus on money. In today's session we are looking at comparing amounts, with a focus on money. We will be looking at the symbols $<$, $>$ and $=$, and using vocabulary such as greater than, equal too and less than. Work through the PowerPoint then complete the activities. <u>Activity one:</u> Complete both pages of the worksheet. Choose the level you are most comfortable with. <u>Activity two:</u> Have a go at the compare amounts game.	LO: To be able to find a total. In today's session we are looking at different methods to find totals. Work through the PowerPoint then complete the activities. <u>Activity one:</u> Complete both pages of the worksheet. Choose the level you are most comfortable with. <u>Activity two:</u> Play a game of four in a row using four coins.	LO: To be able to find the difference. In today's session we are looking at different methods to find the difference. Work through the PowerPoint then complete the activities. <u>Activity one:</u> Complete both pages of the worksheet. Choose the level you are most comfortable with. <u>Activity two:</u> Have a go at the find the difference activity. Don't forget to use money practically to help you.	LO: To be able to find and give change. In today's session we are looking at being able to find and give correct change. Think about the methods we learnt yesterday to help us with this. Work through the PowerPoint then complete the activities. <u>Activity one:</u> Complete both pages of the worksheet. Choose the level you are most comfortable with. <u>Activity two:</u> Have a go at playing shop. Then ensure you are giving the correct change. Practice this practically.	Please complete set tasks on Mathletics.
Please submit your work through Tapestry.
