

5x tables

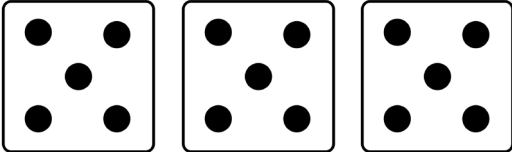

1 Count in 5s to calculate how many in total.

a

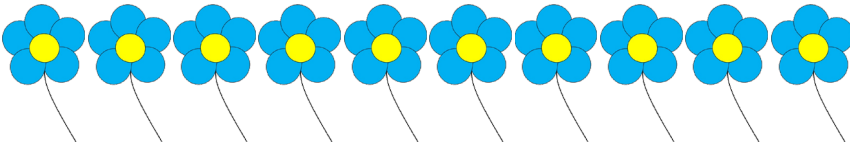

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

b

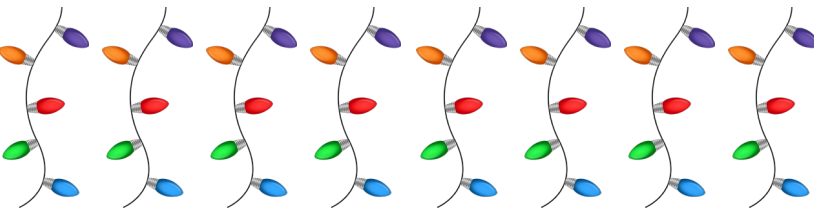

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

c

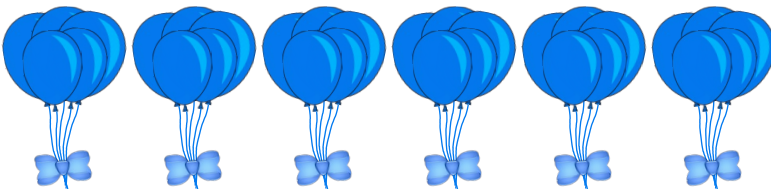

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

d

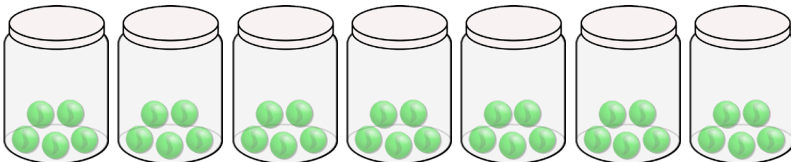

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

e

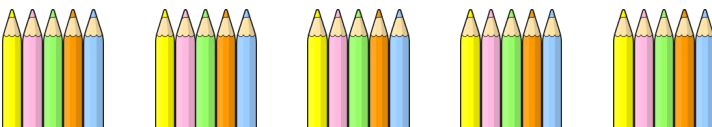

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

f

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

g

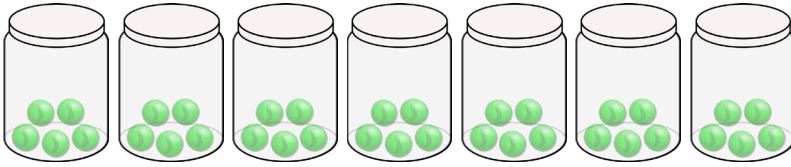

$$\underline{\quad\quad} \times 5 = \underline{\quad\quad}$$

5x tables

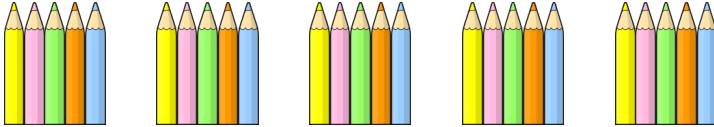

1 Count in 5s to calculate how many in total.

a

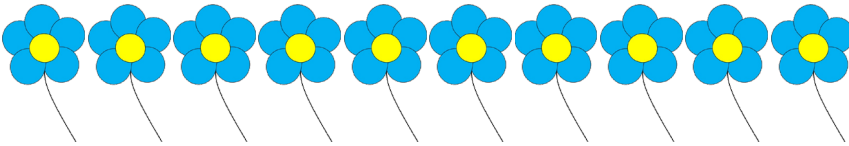

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

b

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

c

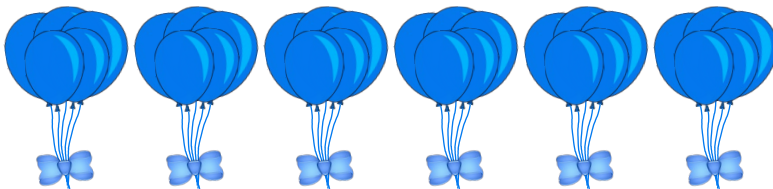

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

d

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

e

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

2 Answer the following questions.

a) How many hands are there if there are 25 fingers? $\underline{\hspace{2cm}} \times 5 = 25$

b) How many hands are there if there are 35 fingers? $\underline{\hspace{2cm}} \times 5 = 35$

c) How many hands are there if there are 15 fingers? $\underline{\hspace{2cm}} \times 5 = 15$

d) How many hands are there if there are 45 fingers? $\underline{\hspace{2cm}} \times 5 = 45$

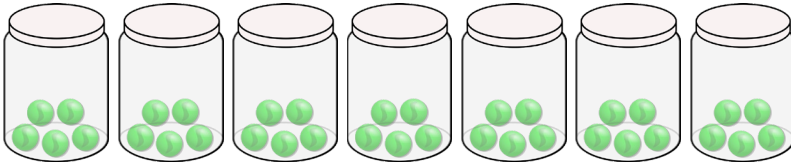

5x tables

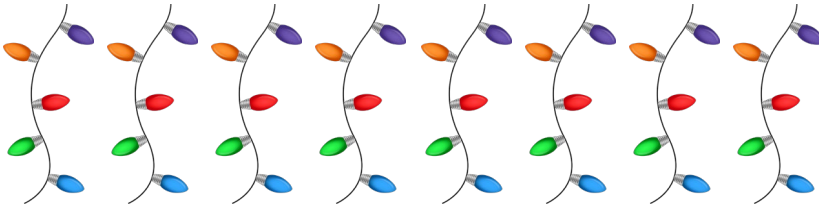

1 Count in 5s to calculate how many in total.

a

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

b

$$\underline{\hspace{2cm}} \times 5 = \underline{\hspace{2cm}}$$

2 Answer the following questions.

a) How many hands are there if there are 55 fingers? $\underline{\hspace{2cm}} \times 5 = 55$

b) How many hands are there if there are 45 fingers? $\underline{\hspace{2cm}} \times 5 = 45$

c) How many hands are there if there are 20 fingers? $\underline{\hspace{2cm}} \times 5 = 20$

d) How many hands are there if there are 30 fingers? $\underline{\hspace{2cm}} \times 5 = 30$
