

Varied Fluency

Step 15: Bonds to 100 – Tens and Ones

National Curriculum Objectives:

Mathematics Year 2: (2C1) [Recall and use addition and subtraction facts to 20 fluently, and derive and use related facts up to 100](#)

Mathematics Year 2: (2C2a) [Add and subtract numbers mentally, including: a two-digit number and ones, a two-digit number and tens, two two-digit numbers, adding three one-digit numbers](#)

Mathematics Year 2: (2C3) [Recognise and use the inverse relationship between addition and subtraction and use this to check calculations and missing number problems](#)

Differentiation:

Developing Questions to support number bonds to 100 using multiples of 5. Pictorial support for all questions, where numbers are represented using sections of a hundred square, numerals or as tens and ones using Base 10.

Expected Questions to support creating number bonds to 100. Some pictorial support provided where numbers are represented in Base 10, sections of hundred squares, numerals and words.

Greater Depth Questions to support creating number bonds to 100. No pictorial support. Numbers represented in numerals, words and bar models or part-whole models with further partitioning.
