

Monday 28th June 2021

LO: To investigate which materials are biodegradable.

I can

CT

Must: Understand what biodegradable means.

Should: Set up a simple experiment and make a prediction.

Could: Explain why biodegradable materials are better for the environment.

Keywords: soil salt water

plastic cardboard banana skin

apple core box experiment

Enquiry question: Which material is biodegradable?

Draw your experiment:

What do you predict to happen in your experiment?

I predict
