The Light Learning Lab

You have been asked to create an educational programme for children all about how light enables us to see.

Work with your group to plan the episode. All members of your group should take part equally. Make sure your explanations of how we see are clear and easy to understand. You may choose to use pictures or diagrams to support your explanations. Get into character as scientists and have fun!

1. Introduce yourselves and tell the audience what the programme will be about.

_____

_____

_____

_____

_____

2. Explain how light travels.

_____

_____

_____

_____

_____

3. Explain how light hits an object then bounces off it into our eyes, enabling us to see.

_____

_____

_____

_____

_____

4. Give your audience any more information you think they need to know, then thank them for watching.

_____

_____
