

# Year 5 Home Learning for Week Commencing 14<sup>th</sup> March 2022

## British Science Week

This week we will be taking part in a range of activities for British Science Week. This year's theme is 'Growth'.

Try out some of the activities from the Primary activities pack. In class we will be tackling:

- 'Antibody and virus origami' page 13.
- 'Making microscopic machines' page 34.
- 'Stretchy slime experiment' page 38.

You can also design a poster for the poster competition. Take pictures of your work and upload them to tapestry.

## Topic

In this lesson we will be examining the role that women played in the war effort. Read through the lesson presentation carefully and answer the questions given.

Task 1: Choose one of the roles for women listed in the presentation. Research this role to find out about the working conditions, duties, pay and uniform.

Task 2: Write an advert to persuade people to volunteer for your chosen service. The advert must contain:

- A job description which focuses on the work they will be completing.
- A description of the qualities applicants need to be successful.
- To make the job seem important and enjoyable.

Year 4 Plenary: Read to the end of the presentation, then answer these questions:

- Do you think women liked having jobs?
- If you were a woman during WW2, which job would you choose and why?
- How do you think women felt about being asked to give up their jobs?

## RRSA

**Respect the views of the child**  
[Article 12]

Go through the PowerPoint and think about the questions asked.

Select some activities to complete from the Primary Activities pages.

Remember to upload work to Tapestry or bring work into school on your return!

## PSHE

**St Patrick's Day**

Go through the PowerPoint that shares information about St Patrick.

Complete some of the following activities:

- Comprehension tasks (selected difficulty)
- Make bread
- St Patrick's Day crossword

## PE

Complete a Joe Wicks' 30 minute workout.
