

GS Year 6 Home Learning for Week Commencing 26th April 2021

Topic (Tuesday)

LO: Henry VIII and the dissolution of monasteries

Starter Activities:

Who was Henry VIII? What facts do you know about him?

Share this information in the style of a fact (non-fiction) poster

What do we mean by dissolution of monasteries? Why did Henry VIII break away from the Church of Rome?

Task 1: To write a letter to Pope Clement VII, in role as either Henry VII or Katherine of Aragon, asking him to annul or uphold the marriage of Katherine and Henry.

Task 2: Compare and contrast how Elizabeth and her father Henry VIII created/dealt with religious divisions in England.

Extension if task already completed: What do you think might have happened if Pope Clement had said 'yes' to Henry's request? How might this have changed history? What impact might this have had on the present day?

Science (Monday)

LO: To explain how babies grow and develop

LO: To present data

Go through the PowerPoint on the website to complete activities.

When comparing graphs consider:

- Which graph should the data be presented with? Why?
- Why do scientists want to present their data clearly? What are the problems if they don't?

Use the information from the PDF documents to present your data.

Use the differentiated 'Analysing Growth of Babies' data activity sheets to explain the data and how they have been presented.

Extension Task: Research the growth in height and/or weight of a different animal.

Growth Mindset (Friday)

LO: To describe how mistakes can help us to learn

LO: To identify how we should respond to a mistake

Use the PowerPoint on the website to complete activities.
