

LO: To create a self-portrait  
inspired by growth mind set.

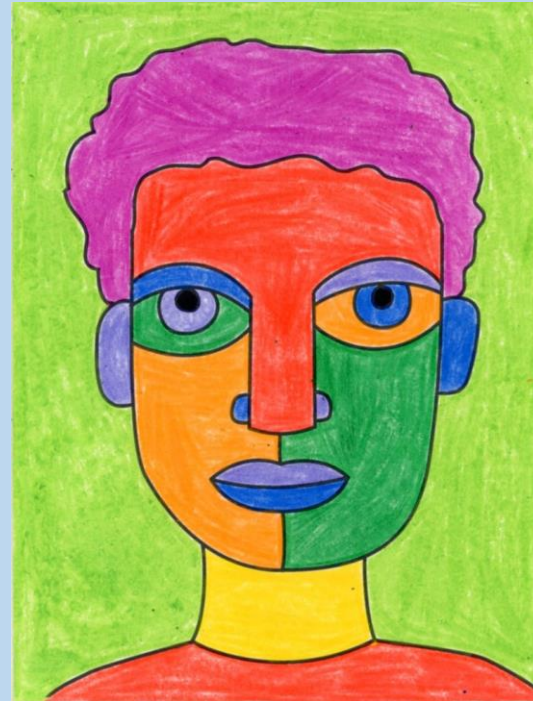

# What is a growth mindset?

# What is a self portrait?

A self portrait is a drawing of yourself.

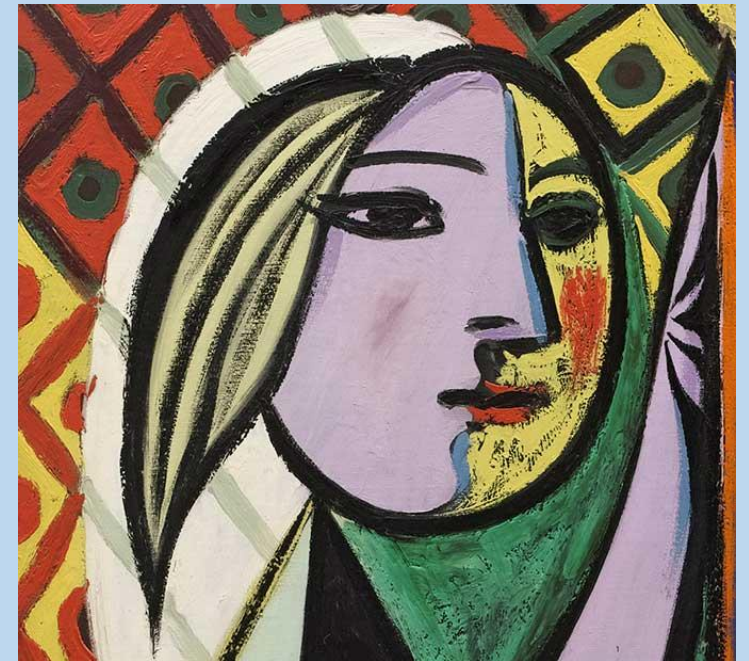

Today we are making a portrait of ourselves to inspire us when we have a fixed mindset.

# Picasso

Picasso is an artist who painted portraits, what do you think of them?

Picasso had a growth mindset, when he started people didn't like his work but he still continued to paint them. Now he is one of the most regarded artists in the world.

Today we are going to be artists and make Picasso inspired portraits with speech bubbles with growth mindset mottos!

What things could we say to each other when we have a fixed mindset?

Task:

Create a self portrait (like the ones on the left), you can use paint or oil pastels but use bright colours!

You can also use black to define the outline.

Then create a speech bubble to add with a something to say to yourself when you have a fixed mindset.
