

Reception Home Learning Week Commencing 1st March 2021

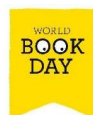

World Book Day!

It is World Book Day on **Thursday 4th March**.

Can you celebrate by seeing how many reading challenges you can complete? Share them on Tapestry!

- Listen to an audio book. eg *We Love you Hugless Douglass* on the World Book Day Website:
<https://www.worldbookday.com/stories/we-love-you-hugless-douglas/>
- Get caught reading in a strange place and share a photo on Tapestry. eg on the climbing frame, in the bath, under the bed, in a den etc.
- Dress up as a character from one of your favourite books- use what you have at home.
- Write your own story!
- Listen to a bedtime story on the KPA and GS Bedtime Story Youtube channel!
https://www.youtube.com/channel/UCpqx-P-37-FL_bRR2Uiv6jg/videos
- Read a book to someone else every day!
- Draw a picture of your favourite book character.

Handwriting

LO: to form my letters correctly.

Please use the handwriting page on the website to access resources to target letter formation you need to practise. Regular practise is important to improve your handwriting and letter formation.

Watch a video and practise the letters shown using the template sheets or lined paper. This page will continue to be updated.

Understanding the World

LO: to understand what floating and sinking is.

Watch lesson 1 about floating and sinking. You can watch lesson 2/3 if you want to as well.

<https://classroom.thenational.academy/units/float-and-sink-9f96>

Can you investigate to find out what floats and sinks?

- 1) collect some objects eg lego, stone, spoon, pen, plastic plate, bottle etc.
- 2) Fill your sink/ bath with water.
- 3) Investigate which of your objects float and which objects sink. Sort them into two piles.
- 4) Share your findings on Tapestry by recording a short video of part of your experiment.

Optional:

https://central.espresso.co.uk/espresso/primary_uk/subject/module/activity/item1068601/grade/module1065807/index.html

Science/ Understanding the World

LO: to explain changes that happen in spring.

Watch the lesson video from The Oak National Academy. Find out about changes that happen in Spring.

Go on a walk to look for signs of Spring.

<https://classroom.thenational.academy/lessons/to-explain-changes-that-happen-in-spring-6njkec>

Physical Development

LO: to travel with confidence and skill around, under, over and through equipment.

Build your own obstacle course. Think about how you can build a course to practise travelling over, under, around and through.

You might use tea towels to jump over, build a tunnel using cushions to move through and use a duvet to crawl under.

Keeping active is really important. You can find lots more ideas about how to keep active at home on the website.
