

Session 1	Session 2	Session 3	Session 4
LO: to recognise and understand the concept of 0	LO: to find and make number bonds to 5.	LO: to compare numbers to 5.	Mental Maths Challenge!
Input: Work through the 'Recognising 0 PowerPoint' together. Discuss the meaning of '0'. Watch the Numberblocks Zero video: https://www.bbc.co.uk/iplayer/episode/b0blsx34/numberblocks-series-3-zero Task: Play a game of skittles/ bean bag toss into a hoop (a game involving points). Encourage the children to keep score by keeping a tally or method of their choice. Encourage the children to recognise when they score 0 and that is means no amount/ nothing.	Input: Recap learning from yesterday. Then watch the lesson input here: https://vimeo.com/483952685 Task: Recap a game of throwing bean bags into a hoop or similar. Give the children 5 bean bags. Take turns to throw the bean bags and see how many land in the hoop and how many land outside the hoop. Eg 3 in and 2 out. How could we record this? How many bean bags do we have all together? Can we find all the different combinations? Eg 1+4, 2+3, 0 + 5 etc. Encourage children to record number sentences for all their scores. See resources activity sheet for more instructions.	Input: Watch the lesson input here: https://vimeo.com/483954739 Can you compare numbers to 5? Can you remember the pairs of numbers that make 5? Do you know any songs about the number 5? Eg 1,2,3,4,5 once I caught at fish alive... Task: Play your own comparing numbers game. Use the cards in the resources or make your own!	Check how well you can do the following skills: 1) Count forwards and backwards to 20. 2) Read and write numbers to 20 accurately with good formation. 3) Recall number bonds to 5. 4) Add 2 single digit numbers using objects. Practise any that are a bit tricky!
