

SATURN CLASS NEWSLETTER

FRIDAY 15TH MAY 2015

Literacy & Maths:

This week Y6 children have worked very hard completing their end of key stage 2 assessments (SATs). They celebrated the end of the tests with an 'end of SATs' party.

Y5 children have continued with looking at nets of 3D shapes, completed short writing tasks for their writing portfolios and developed their understanding of verbal reasoning.

Art/DT:

We have continued working on our gas masks (linked to our topic of World War II). We have used papier mache and added additional materials to make our masks realistic replicas of ones used during the war.

Dance:

SJ Dance has continued working with Y5 and Y6 children to create a dance for the opening ceremony for our sports day – to be held later in the term. The dance is at the final stages and will hopefully be video recorded next week.

Y5 Safety Visit:

We had a very enjoyable visit to the local fire station where we were introduced to many dangers around us. This included fire in the home, safety on the railways, first aid, dangers on the internet and dangerous items within the home. We were scored for our participation and behaviour and I am glad to feedback that we were the winning school and received a special certificate. Well done Y5.
