

Session 1

Our new topic this term is 'Inventions and Robots' . Can you fill in the KWL grid to show what you already know, and what you would like to know.

Session 2

For this session, can you have a look at the inventions from the past 100 years and order them chronologically on the timeline.

Once you have done this, have a think about which invention you think is the biggest 'game changer'. Why do you think this invention is so important?

Session 3

In this session, we are looking at 'Electronic Art'. We will be using Kandinsky as reference and trying to create a piece of art that is similar to Kandinsky's *Concentric Circles*. Can you create a piece of artwork in this style using pens, pencils and paper. Then try to recreate the piece of work using an online drawing app like *Paint*.

Complete the evaluation document and tell us which piece was easier and what elements you found tricky.
