LO: To identify and research Kings and Queens (monarchs) of Great Britain

P	Success Criteria	T
	To order monarchs of Great Britain on a time line	
	To find out facts about monarchs (research)	
	To make comparisons of monarchs – similarities and differences	
	Identify which monarch you feel led our country the best and state reasons (from researched findings)	

You can see how young I am from my picture.

I was widowed aged 42.

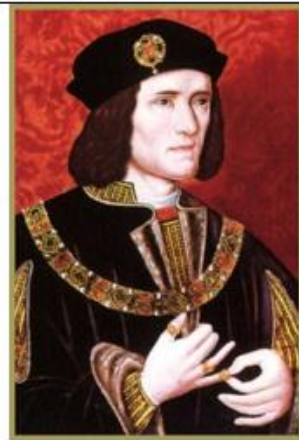

I abdicated to marry Wallis Simpson.

I'm Henry VIII's daughter and I'm never getting married!

I am your current Queen.

My bones were thrown off a bridge in Leicester.

I killed lots of people.

The Gunpowder Plot was during my reign.

I was obese, but my subjects adored me.

I had 6 wives

I began my reign in 1199.

I was never actually a King.

What's that you say?
Pudding Lane's on fire?

I was king twice.

Many of my subjects died from the Black Death.

I died in 1952 and my daughter Elizabeth took over.

Research task

- Select monarchs that you wish to find more information about.
- Gather up to 5 interesting facts
- Can you make any comparisons with the monarchs that you have selected?
- Be prepared to share your research with others.

Discussion activity (1)

- Which of your selected monarchs was the most interesting to research? Why?
- Have you found out anything that was surprising (that you didn't expect)?

Discussion activity (2)

- Think about which monarch (that has been researched) was the most effective at running the country.
- Explain reasons.
