

Count Vertices on 3D Shapes

9a. Circle and count the vertices on this shape.

6

9

3

5

VF

10a. Which shape has more than 2 vertices?

VF

11a. Match the shape to the number of vertices.

8

1

0

VF

12a. Circle the shape that has the same number of faces as vertices.

B.

C.

D.

VF

Count Vertices on 2D Shapes

9b. Complete the table.

Picture of Shape	Number of Sides	Number of Vertices	Name of Shape
A.		5	
B.	4		

VF

10b. Tick the odd one out.

A.

B.

C.

VF

11b. Match the shapes to the correct number of vertices.

A.

B.

C.

6

4

5

VF

12b. Name the shape.

I have the same number of vertices as two triangles.

VF
