

Add by Making 10

Complete the ten frames to solve the calculations below.

$$8 + 5 = \square$$

$$5 + 7 = \square$$

Match each number line with the correct calculation.

$$5 + 6 = 11$$

$$6 + 6 = 12$$

$$6 + 5 = 11$$

Circle the two representations that show the same calculation.

$$7 + 5 = 12$$

7 + $\begin{array}{c} \textcircled{5} \\ \swarrow \quad \searrow \\ \textcircled{3} \quad \textcircled{2} \end{array}$

Add by Making 10

Complete the ten frames to solve the calculations below.

$$8 + 5 = 13$$

$$5 + 7 = 12$$

Match each number line with the correct calculation.

$$5 + 6 = 11$$

$$6 + 6 = 12$$

$$6 + 5 = 11$$

Circle the two representations that show the same calculation.
