

Ash/Mars Year 1 Maths Learning Grid Week Commencing 13th September 2021

Lesson 1 L.O. : To be able to group objects together by characteristic. Follow the presentation. Task: Find a selection of objects and see how many different ways they can be sorted into groups. E.g. colour, size, body parts, material, etc/	Lesson 2 L.O. : To be able to count to 10. Follow the presentation. Task: Select the worksheet your child feels the most comfortable doing. Count the objects on the worksheet and fill in the missing number.	Lesson 3 L.O. : To identify different representations of numbers to 10. Follow the presentation. Task: Select the worksheet your child feels the most comfortable doing. Cut and stick the representation underneath the correct number.
Lesson 4 L.O. : To identify different representations of numbers to 10. Follow the presentation. Task: Select the worksheet your child feels the most comfortable doing. Complete the table with different representations. (Example on presentation.)	Mathletics Please complete the assigned tasks on mathletics. These will be set every Thursday. 	Extra activity: Ask a grown up to shout a number 0-10 randomly throughout the day. As soon as you hear the number you must go and find that many objects as quickly as you can.
