

# Jupiter and Oak Maths Plan Year 2 Week Commencing 17<sup>th</sup> May 2021

Session 1	Session 2	Session 3	Session 4	Session 5
To complete an arithmetic paper (test style)	LO: To be able to measure the perimeter of a shape.	LO: To be able to complete calculations using lengths.	LO: To be able to use the four operations to complete calculations.	
Use the correct year group arithmetic paper. The paper should take about 30-40 minutes to complete. If you have a calculator at home, check through your work.	<p>In this lesson we are looking at measuring the perimeter of shapes.</p> <p>Follow along with the PowerPoint.</p> <p>Have a go at finding objects around and see if you can find the perimeter of the objects you find.</p> <p>Complete the worksheet. There are three different levels. Choose the level you are most comfortable with. Remember to use repeated addition if you are struggling. For a challenge, use multiplication.</p>	<p>In today's lesson we are looking at completing calculations using lengths, specifically addition and multiplication.</p> <p>Follow along with the PowerPoint.</p> <p>Have a piece of tape on the table that measures 30cm. Choose a selection of items. Measure each item. You need to fit all your items along the piece of tape, but your items cannot be overlapping.</p> <p>Think about the different combinations you can use.</p> <p>Extension: Choose a level of worksheet you are comfortable with. Complete some calculations using the lengths of their items.</p>	<p>In today's lesson we are looking at completing calculations using lengths, specifically division and subtraction.</p> <p>Follow along the PowerPoint.</p> <p>Complete the worksheet. There are three levels. Choose the level you are most comfortable with.</p> <p>Extension: Complete the challenge sheets to check understanding for all operations.</p>	<p><b>Mathletics</b></p> <p><b>60 minutes</b></p>
