

Jupiter and Oak Math Plan Week Commencing 8th March 2021

Shapes

Activity one:

Shape Bingo!

Thinking about the 2D and 3D shapes you have learnt about, play a game of shape bingo with people at home.

To make it trickier, describe the shapes rather than saying the shape names.

For example, the next shape has four equal sides and is 2D.

Activity two:

What shape am I?

Play this game with someone else at home.

Write a shape name on a sticky note and place this on the other players head, they do the same for you.

You have a limited amount of guesses to guess what shape is on your head!

Time

Activity one:

Using the Big Ben resource attached. Can you cut everything out. Mix them all up and see if you can match up the correct clock faces, written times and numerical times. Then stick the matching times onto the Big Ben images.

Activity two:

Have a go at this game 'Math the Time'.

<https://www.topmarks.co.uk/Flash.aspx?f=mathingpairstimev3>

Then complete some activities on Mathwizz.

Money

Activity one:

Can you organise coins into different groups. It is up to you how you organise them. This could be colour, size, edges, or value. Could you then open your own shop and practice paying and giving change.

Activity two:

Have a go at this game 'Coin Cruncher'.

<https://natwest.mymoneysense.com/students/students-5-8/coin-cruncher/>

Then complete some activities on Mathwizz.

World Book Day Maths Activity:

Using the resource, complete a selection of the Roald Dahl challenge cards.
