

Varied Fluency Fractions Greater Than 1

Developing

1a. $\frac{3}{4} + \frac{1}{4} = \frac{4}{4} = 1$

2a. Four thirds shaded;

1 whole and 1 part = $\frac{4}{3}$

3a. 1 whole and 1 part

Expected

4a. $\frac{4}{9} + \frac{5}{9} = \frac{9}{9} = 1$

5a. 4 wholes and 1 part shaded;

$\frac{21}{5} = 4 \frac{1}{5}$

6a. 2 wholes and 4 parts

Greater Depth

7a. $\frac{15}{7} = 2 \frac{1}{7}$

8a. 4 wholes and 6 parts shaded.

$\frac{27}{6} = 4 \frac{6}{12}$

9a. 2 wholes and 7 parts

Varied Fluency Fractions Greater Than 1

Developing

1b. $\frac{1}{2} + \frac{1}{2} = \frac{2}{2} = 1$

2b. Fourteen quarters shaded;

3 wholes and 2 parts = $\frac{14}{4}$

3b. 1 whole and 2 parts

Expected

4b. $\frac{9}{12} + \frac{3}{12} = \frac{12}{12} = 1$

5b. 5 wholes and 2 parts shaded;

$\frac{17}{3} = 5 \frac{2}{3}$

6b. 3 wholes and 5 parts

Greater Depth

7b. $\frac{31}{9} = 3 \frac{4}{9}$

8b. 3 wholes and 3 parts shaded.

$\frac{60}{18} = 3 \frac{3}{9}$

9b. 4 wholes and 6 parts
