

Do I need to complete all of the activities?

Parents can choose the activities they think will work best for their child or children, or they can allow pupils to choose which activities they complete and when.

Should I mark my child's work?

You don't need to give formal marking, but it is always helpful to chat and give feedback! You could ask them:

"What went well?"

"How could you make it even better?"

"What would you do differently next time?"

Where can I find online resources about my child's Science topic?

<https://www.theschoolrun.com/what-is-sound>

<https://www.bbc.co.uk/bitesize/topics/zgffr82>

What if I don't have a laptop or device available for my child?

RE: if you are not able to access the video, talk about places of worship and find out what your child knows already about Islam. We will have discussed different beliefs in assembly and in class - see what they can remember!

Music: think of some favourite songs you can sing together!

PE: ask your child to come up with a workout that the family can do together.

Maths: how many triangles can they remember? Talk about **equilateral** triangles (3 equal sides and 3 equal angles), **isosceles** triangles (2 equal sides and 2 equal angles), **right-angled** triangles (one angle is a "square" or 90-degree angle), and **scalene** triangles (no equal sides or equal angles).
