

Multiply and Divide by 6

1a. Complete the calculations to match the pictures below.

$$\square \times \square = \square$$

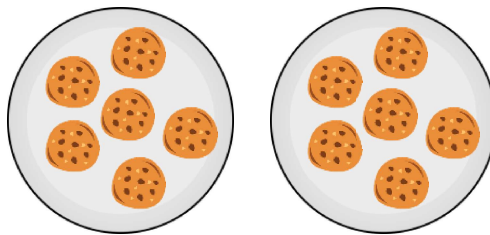

$$\square \div \square = \square$$

VF

Multiply and Divide by 6

1b. Complete the calculations to match the pictures below.

$$\square \times \square = \square$$

$$\square \div \square = \square$$

VF

2a. Tick the image which correctly represents the calculation below.

$$4 \times 6$$

A.

☐

B.

☐

VF

2b. Tick the image which correctly represents the calculation below.

$$7 \times 6$$

A.

☐

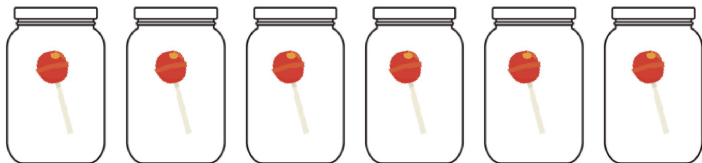

B.

☐

VF

3a. Jess has 6 lollipops.
She shares them equally between 6 jars.

How many lollipops are in each jar?

Write a calculation to show your answer.

VF

3b. Lewis has 60 candles.
He shares them equally between 6 cakes.

How many candles are on each cake?

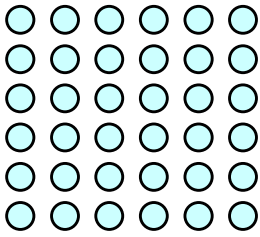

Write a calculation to show your answer.

VF

Multiply and Divide by 6

4a. Complete the calculations to match the array below.

$$\square \times \square = \square$$

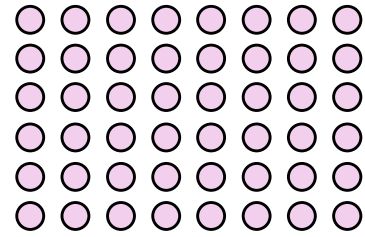

$$\square \div \square = \square$$

VF

Multiply and Divide by 6

4b. Complete the calculations to match the array below.

$$\square \times \square = \square$$

$$\square \div \square = \square$$

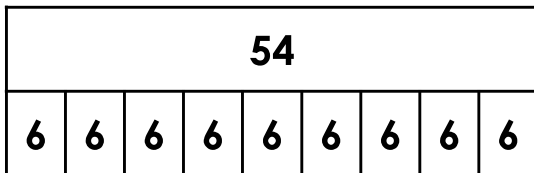

VF

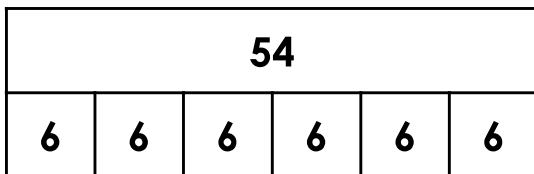

5a. Tick the bar model which correctly represents the calculation below.

$$9 \times 6$$

A.

☐

B.

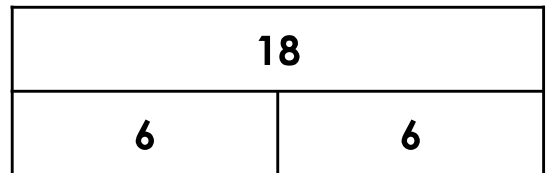

☐

VF

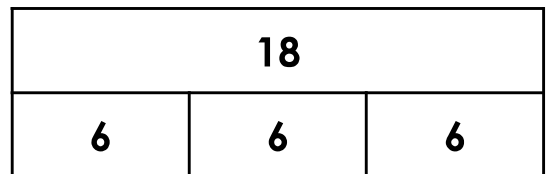

5b. Tick the bar model which correctly represents the calculation below.

$$3 \times 6$$

A.

☐

B.

☐

VF

6a. Susie has 24 sweets.
She shares them equally between 6 jars.
How many will there be in each jar?

Draw the sweets in the jars below.

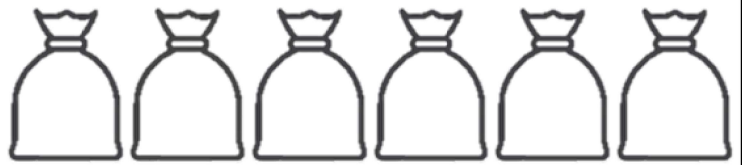

Write a calculation to show your answer.

VF

6b. Lewis has 36 marbles.
He shares them equally between 6 bags.
How many will there be in each bag?

Draw the marbles in the bags below.

Write a calculation to show your answer.

VF

Multiply and Divide by 6

7a. Complete the division calculation to match the multiplication below.

$$12 \times 6 = 72$$

$$\square \div \square = \square$$

VF

Multiply and Divide by 6

7b. Complete the multiplication to match the division calculation below.

$$\square \times \square = \square$$

$$66 \div 6 = 11$$

VF

8a. Tick the answer which correctly solves the calculation below.

$$8 \times 6$$

A. 46 ☐

B. 48 ☐

VF

8b. Tick the answer which correctly solves the calculation below.

$$4 \times 6$$

A. 24 ☐

B. 42 ☐

VF

9a. Joshua has 30 biscuits.

He shares them equally between 6 friends.
How many biscuits will each person get?

Write a calculation to show your answer.

VF

9b. Rose has 54 sweets.

She shares them equally between 6 party bags.
How many will there be in each bag?

Write a calculation to show your answer.
