

**Do I need to complete all of the activities?**

Parents can choose the activities they think will work best for their child or children, or they can allow pupils to choose which activities they complete and when.

**Should I mark my child's work?**

You don't need to give formal marking, but it is always helpful to chat and give feedback! You could ask them:

"What went well?"

"How could you make it even better?"

"What would you do differently next time?"

**What if my child has already done this Espresso activity?**

Some children may have logged in to try different activities already! If this happens, they can browse Espresso and find a different activity to try instead.

**Where can I find information about my child's Science topic online?**

<https://www.bbc.co.uk/bitesize/topics/zj44jxs>

<https://www.theschoolrun.com/what-is-electricity>

<https://www.dkfindout.com/uk/science/electricity/>

**What if I don't have a laptop or device available for my child?**

**Topic** - Talk to your child about earthquakes. What do they think is happening? If possible, use information books to support their thinking.

**PE** - Encourage your child to create their own workout in the garden or living room. Can they remember how to warm up and warm down?

**Science** - look together at the electrical switches in your home (remember to be safe whilst doing this). What does your child think they might do? Discuss the idea of switches connecting and breaking a circuit.
