Year 5 Maths Week Commencing 17th May 2021

Monday 17.05.2021	Tuesday 18.05.2021	Wednesday 19.05.2021	Thursday 20.05.2021	Friday 21.05.2021
LO: To use decimals in the context of money and measures	LO: To round decimals to the nearest tenths or whole number	Maths Whizz 60 minutes	LO: To compare numbers with up to three decimal places	LO: To compare and order decimals
Can we name the different coins and notes used in the UK? Convert p to £ e.g. 25p = £0.25 Do this for a few different money amounts of your choice. Measurements: What is the metric system? What do we measure using the metric system? What is the rule to convert measurements using the metric system? Share your understanding.	What is meant by rounding? What is its purpose? Can you demonstrate your understanding of rounding using a place value grid? Show how this could be achieved. Could you use some of the numbers from previous LO and round to the nearest tenth or whole amount?		What do you have to consider when you are ordering numbers? Is this the same for decimal numbers? Could you order: 0.521, 0.504, 0.533 and 0.512? Which value do you look at to order these smallest to largest (as the tenths value is the same in all of the decimals)? Can you remember the mathematical symbols for smaller than and greater than? Can you find the midpoint (halfway) value between two decimal numbers?	Complete Classroom Secrets PPT, looking at all three sections • Introduction • Fluency • Reasoning/Problem Solving
Activity/Resources: Complete 2 level differentiation Year 5 | Great Staughton Primary Academy	Activity/Resources: Complete 3 level differentiation Year 5 | Great Staughton Primary Academy		Activity/Resources: Complete 3 level differentiation Year 5 | Great Staughton Primary Academy	Activity/Resources: Complete 3 level differentiation Year 5 | Great Staughton Primary Academy
